# CELEBRATING THE FRUITS OF HARD WORK

Congratulations to all our students on their First Term Results. Every report card reflects not only academic performance, but also dedication, perseverance, and a willingness to learn. We applaud those who achieved their goals and encourage every student to view these results as another step in their educational journey. Success is built through consistent effort, determination, and the courage to keep improving.

# A WELL-DESERVED SUMMER BREAK

Summer vacations will be observed from 20th July to 31st July, providing students with an opportunity to relax and recharge after a productive academic term. We encourage students to use this time wisely by reading books, exploring new hobbies, spending quality time with family, and maintaining healthy daily routines.

A balanced holiday allows both the mind and body to recover, ensuring that everyone returns to school refreshed, motivated, and ready for another exciting phase of learning.

# SPLASHES, SMILES, AND SWEET MEMORIES

Our Pre Section is eagerly looking forward to the exciting Splash 'N' Scoop Day, beginning next week.

The event promises a wonderful combination of water play, fun activities, and joyful learning experiences specially designed for our youngest learners.

Beyond entertainment, the activities have been planned to strengthen coordination, confidence, and social interaction in a safe and engaging environment.

Events like these encourage children to learn through exploration while creating unforgettable childhood memories.

We are excited to welcome another day filled with laughter, happiness, and countless smiling faces.

# FROZEN FUN COMES TO LIFE

The Primary Section will soon celebrate Frozen Fun Day, offering students an enjoyable blend of exciting games, refreshing activities, and creative classroom experiences. Learning becomes even more meaningful when combined with fun, imagination, and teamwork. We look forward to another memorable day in which every child participates with enthusiasm and confidence.

# REACHING BEYOND THE STARS

Curiosity knows no limits, and neither does learning. Our Secondary Section will soon participate in an exciting Space Exploration Event, which will introduce students to the fascinating worlds of astronomy and space science.

Through engaging activities and interactive learning experiences, students will explore planets, galaxies, space technology, and scientific discoveries that continue to shape our understanding of the universe.

The event aims to inspire creativity, critical thinking, and scientific curiosity while encouraging students to dream beyond the boundaries of Earth.

# THE POWER OF COMMUNICATION

Academic excellence is important, but strong interpersonal and communication skills are equally valuable.

Through our Student Assessment Policy (SAP), students are continuously encouraged to communicate with confidence, respect, and empathy.

Good communication strengthens friendships, improves teamwork, and builds self-confidence in everyday life.

Listening carefully, expressing ideas politely, and respecting different opinions are qualities that help shape successful individuals.

We encourage every student to practise these skills both inside and outside the classroom.

# A GENTLE REMINDER REGARDING FEE VOUCHERS

Parents are respectfully informed that the 28th of every month is the official date for the issuance of fee vouchers. Kindly ensure that school dues are deposited within the prescribed timeline, in accordance with the school's Fee Policy. Your timely cooperation helps ensure the smooth functioning of academic and administrative operations.

# BUILDING STRONG SCHOOL AND HOME PARTNERSHIPS

To ensure student safety and maintain effective communication, only parents or legal guardians are permitted to correspond with the school regarding academic or administrative matters. This policy protects the interests of every student while ensuring that important information is communicated through authorised family members.

# PRIOR WRITTEN APPLICATIONS

Parents are requested to submit written applications in advance whenever leave, permission, or any special request is required. Advance notice enables the school administration to review requests carefully and make appropriate arrangements without unnecessary delays.

Your cooperation helps maintain an organised and efficient academic environment for everyone.

# KEEP VALUABLES AT HOME

Students are reminded that gadgets, smart devices, expensive stationery, valuable watches, and other costly personal belongings are not permitted on campus.

Such items may become a source of distraction or may be misplaced during school hours.

The school cannot accept responsibility for lost or damaged valuables. Parents are requested to support this policy by ensuring that students bring only the materials necessary for learning.

# EVERY SCHOOL DAY MATTERS

Regular attendance is one of the strongest foundations of academic success. Students must maintain a minimum attendance of 85% to qualify for promotion to the next class. Consistent attendance ensures uninterrupted learning, better classroom participation, and stronger academic performance. Missing classes not only affects academic performance but also limits valuable learning opportunities. Every school day contributes to a student's overall growth and development.

# EVERY CONCERN DESERVES FAIR CONSIDERATION

To ensure transparency and proper documentation, the school will only investigate complaints submitted in writing. Oral complaints cannot be processed, as they may lead to misunderstandings or incomplete information. Once a written complaint is received, it will be carefully reviewed by the concerned department. Feedback will be shared with the parent or guardian within one week, ensuring that every concern is addressed professionally, fairly, and efficiently.
