WELCOME TO TERM THREE: A NEW CHAPTER BEGINS

The Third Term of the Academic Session 2026 commenced on Monday, 14th September 2026. As students begin a new term, they are encouraged to approach their studies with renewed enthusiasm, commitment, and a positive attitude.

A new term brings fresh opportunities to learn, improve, and achieve personal and academic goals. Students should return prepared, organised, and ready to make the most of the learning experiences ahead.

We look forward to a productive and successful third term for our entire school community.

COLLEGE PTM: STRENGTHENING THE HOME-SCHOOL PARTNERSHIP

The College Parent-Teacher Meeting provided an opportunity for parents and teachers to discuss students' academic performance, attendance, conduct, and overall development. The interaction encouraged meaningful communication and a shared understanding of students' educational needs.

We sincerely appreciate the participation and cooperation of parents. Their involvement plays an important role in supporting students and helping them overcome challenges.

Regular communication between home and school remains an essential part of a successful educational journey.

LEARNING IN MOTION: EXTRACURRICULAR ACTIVITIES BEGIN

A range of indoor and outdoor extracurricular activities will commence this week. These activities will provide students with opportunities to explore their interests, develop new skills, and participate in experiences beyond their regular classroom lessons.

Indoor activities can encourage creativity, concentration, and teamwork, while outdoor activities promote physical fitness, confidence, and healthy interaction among students.

We encourage students to participate actively and make the most of these opportunities. Learning becomes more meaningful when students are given the chance to discover their abilities in different environments.

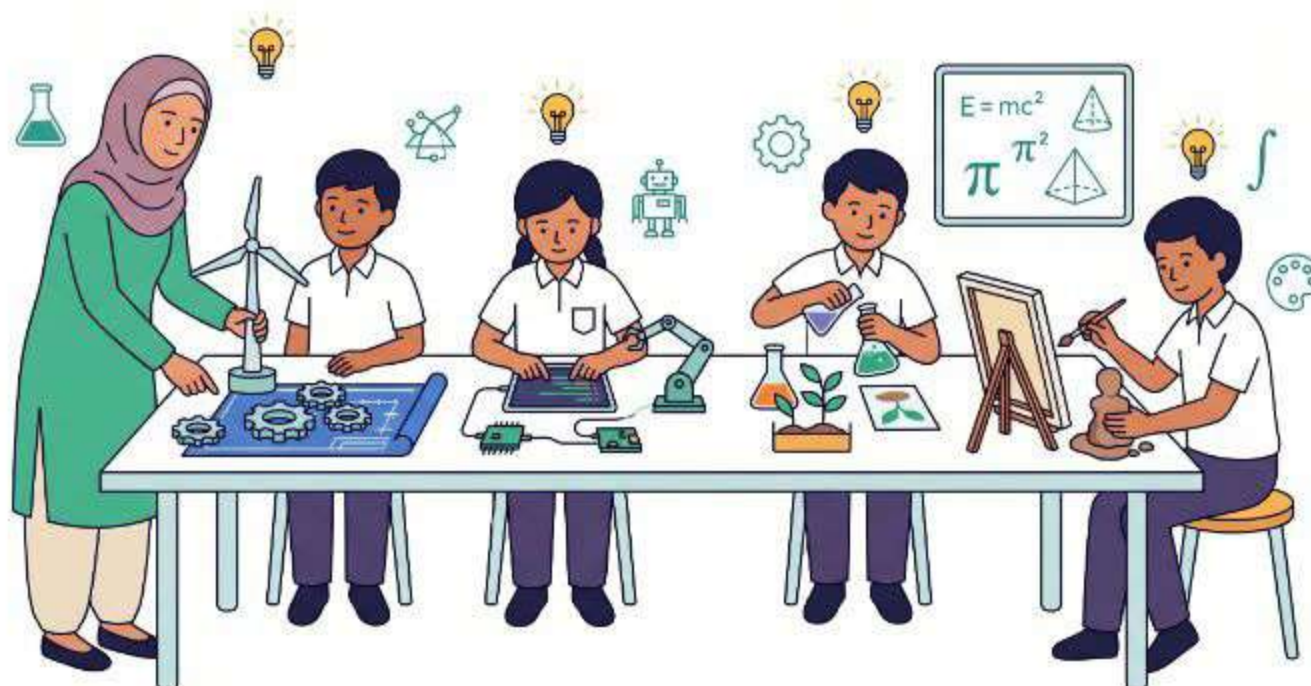

STEAM PROJECTS: CREATIVITY TAKES SHAPE

Work on various STEAM projects is currently underway at Leaders' Odyssey School. Students and teachers are engaged in developing projects that encourage creativity and problem-solving.

STEAM education brings together science, technology, engineering, arts, and mathematics to help students understand how different fields connect with one another. Practical projects allow students to explore ideas and apply classroom knowledge in meaningful ways.

We look forward to displaying these projects for parents soon. The exhibition will provide an opportunity to showcase the hard work, creativity, and learning of our students.

A WORLD OF OPPORTUNITIES: GERMAN LANGUAGE CLASSES

German language classes are currently being conducted at the school, providing students with an opportunity to explore a new language and culture.

Learning a foreign language can help students develop communication skills, improve their understanding of different cultures, and broaden their educational horizons. It also encourages patience, confidence, and an appreciation for linguistic diversity.

We encourage students to participate enthusiastically and make the most of this valuable learning opportunity.

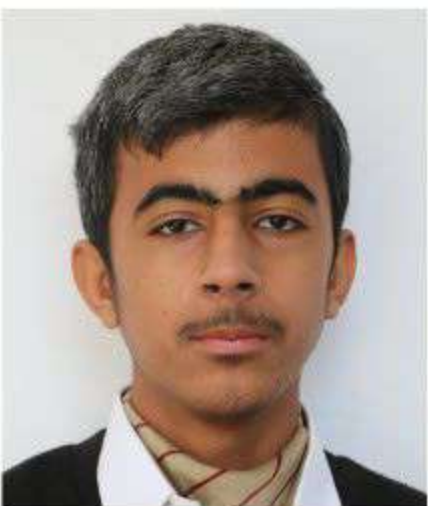

CELEBRATING SUCCESS: CONGRATULATIONS TO OUR COLLEGE STUDENTS

We extend our heartfelt congratulations to the students of First Year and Second Year on the announcement of their results. Their achievements reflect dedication, perseverance, and commitment to their studies.

We also commend our hardworking teachers for their continued guidance, encouragement, and contribution towards the academic development of our students. Their efforts play an important role in helping students reach their potential.

May this success inspire students to set higher goals and continue striving for excellence in their future academic endeavours.

AI SKILLS BOOT CAMP: LEARNING THROUGH PRACTICAL EXPERIENCE

The AI Skills Boot Camp for senior classes is currently underway, providing students with approximately 15 hours of training focused on Artificial Intelligence tools and practical, hands-on experience.

The sessions aim to help students understand the applications of AI and develop familiarity with digital tools that may support their learning, creativity, and problem-solving. Practical activities allow students to explore concepts beyond theoretical explanations.

We encourage our senior students to participate actively in the training and develop the skills needed to engage responsibly and confidently with emerging technologies.

MANNERS MATTER: BUILDING CHARACTER THROUGH COURTESY

Good manners and courtesy are essential qualities of a well-disciplined student. Under the Student Assessment Policy (SAP), students are expected to treat their teachers, classmates, and other members of the school community with respect and kindness.

Simple actions such as greeting others politely, listening attentively, speaking respectfully, and offering help can make a meaningful difference in the school environment. Courtesy reflects not only a student's upbringing but also their character and sense of responsibility.

At Leaders' Odyssey School, we believe that true education goes beyond academic achievement. Developing respectful behaviour and positive social habits prepares students to become responsible and considerate members of society.

FEE SUBMISSION POLICY: RESPONSIBILITY IN EVERY COMMITMENT

Parents and guardians are requested to follow the school's fee submission policy and ensure that payments are made within the prescribed deadlines. Timely fee submission helps maintain the smooth functioning of academic and administrative activities.

Parents are also encouraged to review their fee vouchers carefully and contact the relevant school office in case of any questions or concerns regarding payments.

We appreciate the continued cooperation of parents in fulfilling their financial responsibilities and supporting the school's educational operations.

BACK TO ROUTINE: REGULAR SCHOOL TIMINGS RESUME

Students and parents are reminded that regular school timings are now in effect. Students are expected to arrive on time and follow the daily schedule established by the school.

Punctuality is an important part of discipline. Arriving on time allows students to begin their lessons with greater focus and ensures that classroom activities continue without unnecessary interruptions.

Parents are requested to make the necessary arrangements to ensure that students reach school and return home according to the regular timetable.

SECOND TERM ASSIGNMENT RESULTS: CHECK THE SCHOOL APP

The results of the Second Term Assignments will be announced next week through the School App. Students and parents are encouraged to check the application regularly for the latest academic updates.

The School App provides convenient access to important information, including assessment results, attendance, and other academic records. Parents are requested to make full use of this facility to remain informed about their child's progress.

LEARNING TODAY, LEADING TOMORROW

As we enter the third term, Leaders Odyssey School continues to focus on academic excellence, character building, creativity and practical learning. With new activities, innovative projects and opportunities for skill development, we look forward to another productive and successful term.
