ADMISSIONS 2027: YOUR CHILD'S NEXT CHAPTER BEGINS HERE

Admissions for the 2027 academic session present an important opportunity for families seeking a learning environment that values academic growth, character building, and practical skills. We welcome prospective families to learn more about the school and the opportunities available to our students.

Parents interested in admission are encouraged to contact the school administration for information about the admission process and seat availability. Early enquiries are recommended to help families plan ahead for the upcoming academic year.

WINTER UNIFORM IS MANDATORY

As the weather changes, students are required to wear the prescribed winter uniform. Parents are requested to ensure that their children arrive at school dressed in accordance with the school's uniform guidelines.

Following the uniform policy promotes neatness, consistency, and a sense of belonging. Students are expected to maintain these standards throughout the winter season as part of their daily school routine.

BEST WISHES TO OUR AITCHISON DELEGATION

We extend our best wishes to the students representing our school as part of the Aitchison delegation. Representing one's school is an opportunity to demonstrate confidence, discipline, and a willingness to learn from new experiences.

We hope the delegation makes the most of this opportunity, builds meaningful connections, and returns with valuable experiences to share with fellow students. We wish everyone involved the very best.

BOYS CAMPUS: KEEPING THE SPIRIT OF SPORTS ALIVE

Sports activities are continuing at the Boys Campus, bringing energy, excitement, and friendly competition into school life. Students have the opportunity to participate, enjoy themselves, and engage with their peers beyond regular classroom lessons.

Along with enjoyment and physical activity, sports help students understand the value of teamwork, discipline, and sportsmanship. Learning to respect opponents, support teammates, and accept both victory and defeat gracefully are lessons that extend well beyond the playing field.

SAP FOCUS: MANNERS AND COURTESY MATTER

Good manners and courtesy are essential parts of the Student Assessment Policy (SAP). Students are encouraged to greet others respectfully, use polite language, listen when someone is speaking, and treat classmates, teachers, and school staff with consideration.

These everyday behaviours help create a welcoming and respectful school environment. Courtesy is not limited to formal situations; it is reflected in how students speak to one another, respond to instructions, and handle disagreements.

Developing these habits early helps students build stronger relationships and become more responsible members of their community. Small acts of kindness and respect can make a lasting difference to the atmosphere of the school.

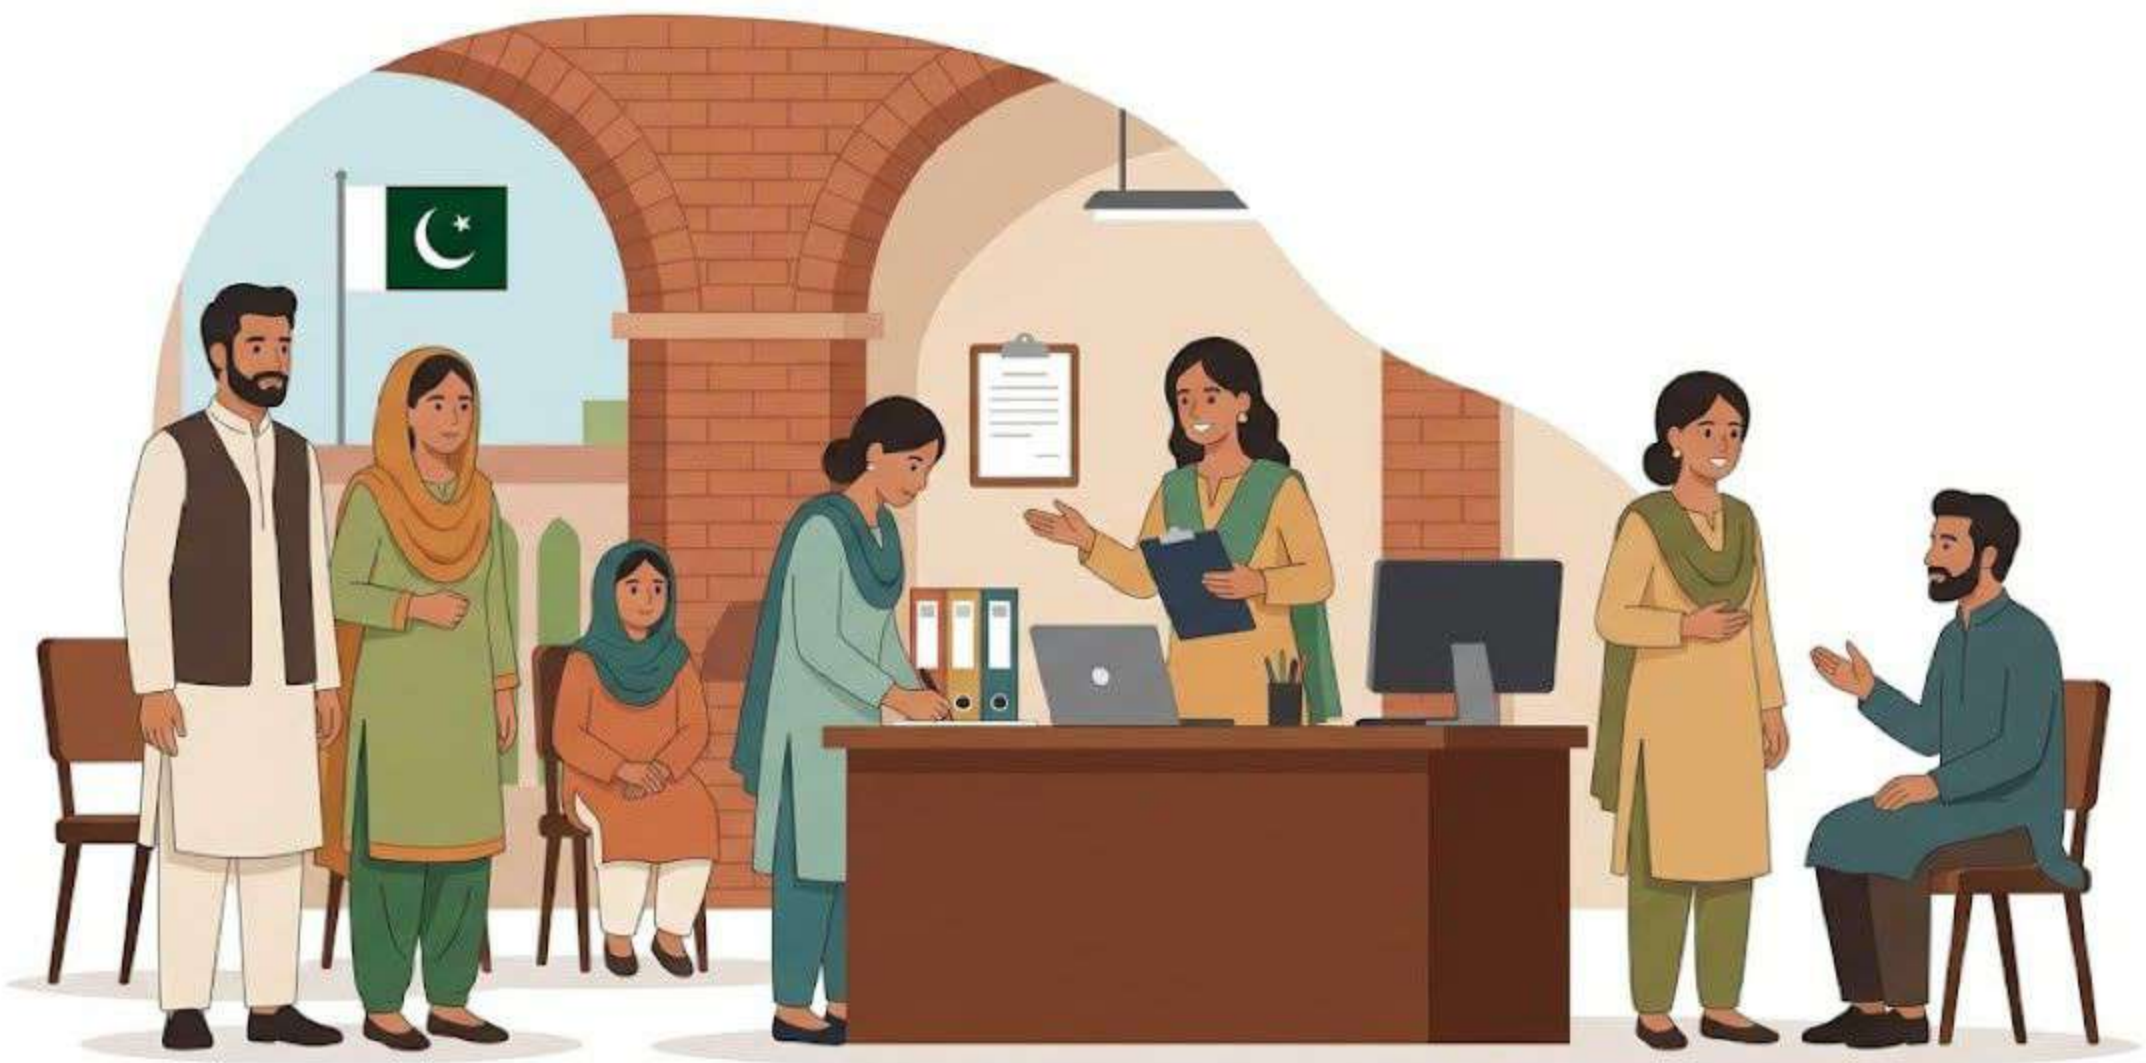

AN IMPORTANT REMINDER: UPDATE YOUR CONTACT INFORMATION

Parents are requested to ensure that the school has their latest contact information, including active phone numbers and any other details required for official communication. Accurate records help the administration reach families when necessary.

Updated contact information is particularly important for notices about academic progress, meetings, school activities, and urgent matters. Parents who have changed their contact details are encouraged to inform the school office promptly.

STUDENT ID CARDS: PHOTOGRAPHS FOR 2027

Preparations for student ID cards for the 2027 academic year are underway. Students' photographs are an important part of the process, helping the school maintain updated identification records for the upcoming session.

Parents and students are requested to follow the school's instructions regarding photographs and any related requirements. Timely cooperation will help ensure that ID card process proceeds smoothly.

STEAM FAIR 2026: A CELEBRATION OF IDEAS AND INNOVATION

The STEAM Fair 2026 provided a valuable opportunity for students to bring their learning to life through science, technology, engineering, arts, and mathematics. The event highlighted the value of curiosity, creativity, and practical exploration, allowing students to present ideas beyond the boundaries of traditional classroom learning.

Projects and demonstrations gave students an opportunity to apply concepts, think critically, and share their work with others. Events of this nature also encourage collaboration, communication, and confidence as students explain their ideas and learn from different approaches.

The fair reflected the importance of preparing learners for a world where innovation and problem-solving skills are increasingly valuable. We appreciate the efforts of the students, teachers, and everyone involved in making this learning experience possible.

PRIMARY CAMPUS FIELD TRIP: LEARNING THROUGH EXPERIENCE

The Primary Campus field trip offered students a welcome change from their regular classroom routine. Through shared activities and new surroundings, students had the opportunity to explore, interact, and enjoy time together outside the school setting.

Field trips can make learning more memorable by allowing children to experience things firsthand. They also encourage independence, cooperation, and responsibility while helping students strengthen friendships and develop confidence in group settings.

GIRLS CAMPUS: MORE ADVENTURES BEYOND THE CLASSROOM

Field trips for the Girls Campus are continuing, giving students opportunities to explore new environments and enjoy educational experiences outside the classroom. These outings add variety to school life and allow students to learn through observation, participation, and shared activities.

Such experiences can strengthen friendships, encourage teamwork, and help students become more independent. With appropriate supervision and guidance, students can enjoy these opportunities while developing a greater sense of responsibility towards themselves and others.

NOVEMBER AND DECEMBER FEE VOUCHERS

Fee vouchers for November and December serve as an important reminder for parents to plan upcoming payments and remain informed about their children's fee schedules. Parents are requested to check the vouchers carefully and follow the payment instructions provided by the school.

For any questions regarding the vouchers, payment deadlines, or the school's fee policy, parents may contact the administration for clarification. Timely communication helps prevent misunderstandings and supports the smooth management of school matters.

THIRD PTM FOR PRE-NURSERY TO KINDERGARTEN

The third Parent-Teacher Meeting for Pre-Nursery to Kindergarten will take place on 31 October 2026. The meeting will give parents and teachers an opportunity to discuss young learners' progress, classroom participation, and development during these important early years.

At this stage, children develop foundational skills in communication, social interaction, early literacy, and numeracy. A close partnership between home and school helps ensure that children receive consistent encouragement and support.

Parents are encouraged to attend and share their observations with teachers. Working together allows both families and educators to better understand each child's needs and celebrate progress along the way.
